Anonymous tips welcome.

I was riding my bicycle headed west bound about halfway to the golf course from Trout Brook Rd when the front motorcyclist slowed to body check me in an attempt to knock me off my bike while the driver of the second motorcycle hung back a little and may have been making a video of the event.

Due to the fact the front motorcycle had no visible license I assume they were on illegal vehicles having come down from one of the local developments in order to ride off-road on West Point property and were then returning home.

The front cyclist had a rather unique jacket design that may have been a camouflage sport jacket or retro parka with a hood.

I believe an auto motorist was passing the opposite direction and may be witness.

Hopefully the \$1,000 reward will prompt the driver of the second motorcycle to choose being forthcoming over being held as a fully compliant accomplice.

Or maybe we will hear from one of the numerous people they have likely already told.
